

Trouble hearing on the phone?

Customize Your Listening Experience

The XL50™ uses four distinct tone settings to provide you with a listening experience customized to your hearing loss, whether or not you wear hearing aids.

Now hear clearly with the XL50™ featuring Digital Clarity Power™

The Clarity Professional® Ameriphone® XL50™, featuring DCP™ technology, makes soft sounds audible while keeping loud, sudden sounds bearable. With up to 60 dB of amplification, the XL50™ is ideal for those with a severe hearing loss or low vision.

- Patented Digital Clarity Power™ technology
- Amplifies incoming sounds up to 60 decibels at 124 dBSPL
- Four (4) tone settings for a customized listening experience
