# Quick User Guide

KuandoBOX Setup
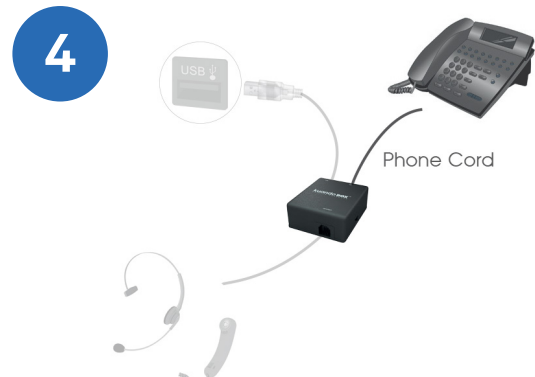

1

Download and install the software.

2
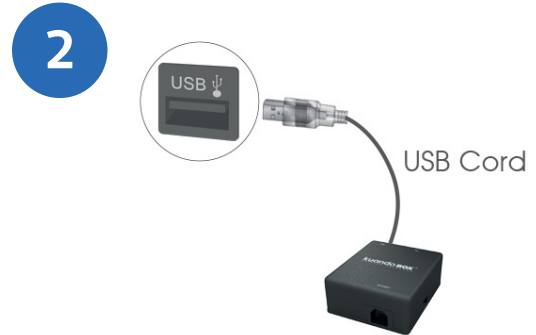

USB Cord

Plug the USB cord into your computer.

3

Headset or Handset cord
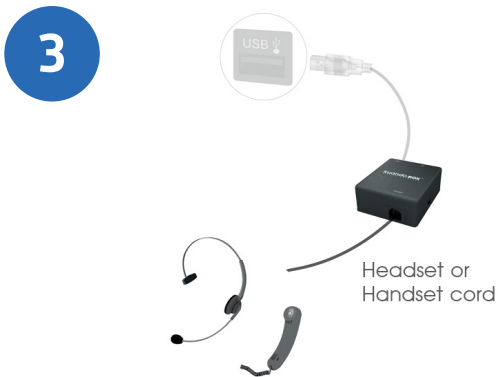

Plug your headset or handset into the Headset slot.

4

Phone Cord

4. Plug your telephone into the Tel slot.

The selection switches on the side of the box control the wiring of the telephone and headset.

The switches have the factory setting "I". Move them to "II" if you are using a Cisco phone.
